On Site Lateral Flow Testing

As a requirement of the Department for Education (DfE), we have been directed to provide on-site lateral flow device tests for pupils before their return to school on January 05 2022.

Pupils are strongly recommended to attend school for testing on the following date.

All year groups – Tuesday 04 January 2022 08:00 – 15:00

Before pupils can be tested, parents are required to provide their consent for each pupil, we cannot use a single consent for a whole family. Please visit the form below and complete the required details. Unfortunately, we cannot perform a test without the completion of this form before the testing day. Pupils over the age of 16 are able to complete the consent form themselves.

In order to prepare for the testing day **please complete the form BEFORE 09:00 on Monday 20 December 2021.**

Pupils who have parental consent may attend at any time during the day from 08:00 to 15:00. If you have any further queries, please contact our new email address at wva.enquiries@consilium-at.com.

We hope everyone will have a happy, healthy Christmas.
